Summary: In June 2012 the Town Council conditionally approved the November 2011 Draft Shoreline Master Program (SMP), subject to the review and approval of the Washington State Department of Ecology. Following its review, Ecology determined there were a number of changes and additions necessary in the 2011 Draft in order for the Town's SMP to be found compliant with the Washington State Shoreline Management Act. Because of the nature and scope of the changes proposed by DOE and in order to ensure an open and transparent public review and approval process, the 2011 Draft SMP was returned to the Planning Commission for review and comment on the new Aquatic Shoreline Environment Designation recommended by DOE, as well as any other items recommended for review by Staff.

The Department of Ecology provided two sets of amendments. The first set of amendments is required by Ecology and is set forth in Attachment B. The second set of amendments is recommended by Ecology and is set forth in Attachment C.

Having carefully considered public and Staff comments, and having held an open record public hearing conducted on March 30, 2015, the Planning Commission unanimously recommended adoption of both sets of amendments and approval of Draft "C" of the Eatonville Shoreline Master Program.

In order to complete the project by no later than June 30, 2015, the Washington State Department of Ecology has provided the Town with additional funding in the amount of \$5,000.

Recommendation: Staff recommends adoption of Resolution No. 2015 – O approving and adopting the Town of Eatonville 2015 Shoreline Master Program.

Motion for consideration: I move to adopt Resolution No. 2015 –O approving and adopting the Town of Eatonville 2015 Shoreline Master Program.

Fiscal Impact: None
