

201 Center St. W Eatonville WA 98328

Stormwater Management and Erosion Control Permit Application Checklist

- ✓ A completed Stormwater Management and Erosion Control application
- ✓ Application fee and Engineering Review deposit
- ✓ Stormwater Management and Erosion Control Site Plot Plan drawn to scale with the project description. Refer to application for complete requirements
- ✓ A SEPA Checklist (and applicable application fee and review deposit) is required if the application is part of an overall change in land use, i.e.; conversion of unbuild lands to buildable lots. PLEASE NOTE that a SEPA application requires a determination from the Town including a public comment period. Publication of a Public Notice is \$150.00. When SEPA is required, the checklist and subsequent determination must be completed prior to the commencement of any earthwork and also as part of a plat of PUD application. SEPA may be done by combining these two procedures into one review or on two occasions with two separate reviews. A SEPA Checklist is NOT required for a Building permit application.
- ✓ State of Washington Department of Natural Resources FOREST PRACTICES APPLICATION (\$500.00 fee payable to WA DNR) is required if:
 - You are cutting more than 5,000 board feet of lumber
 - The lumber is being taken to market; or
 - The total amount of land (including all contiguous parcels) is greater than 2 acres*Please go to <http://www.dnr.wa.gov> for instructions when filling out this application

The removal of hazard trees; that is a tree within 1.5 tree lengths from a structure, does not require a permit provided that the trees do not go to market and that the stumps are left in the ground.

The removal of (1) tree including stump – if none of the timber is taken to market and that the total area of disturbance is less than 1,000 square feet IS PERMITTED without a permit

- ✓ If you are submitting a Forest Practices Application that needs to go to Washington State Department of Natural Resources, the cost of the envelope and postage will be added to the permit fees as Miscellaneous charges
- ✓ Prior to issuance of a Stormwater Management of Erosion Control Permit, the Town must inspect and approve the installation of all erosion control devices installed as indicated on applicant provided site map
