RE: EATONVILLE POLICE DEPARTMENT'S
APRIL 2020 REPORT

General

We are happy to have our intern from Central Washington University, Paris Hagen. She is interested in a career in law enforcement and we feel privileged to be able to assist her with her continuing education. Although "business" is slower than usual, we are finding creative ways to keep her busy and fulfill her learning experience.

Public Safety Committee

There was no public safety committee meeting in April.

Management Activities

We took delivery of Officer Duran's vehicle on 5/6/20. Systems for Public Safety did a phenomenal job in outfitting the vehicle for us. It includes many technological upgrades that will greatly assist Officer Duran in safely and effectively patrolling our Town.

Officer McGuire's vehicle's transmission sustained a catastrophic failure, to no fault of his own. The damage also extended to the engine block which requires the replacement of both. This replacement will be covered under the full manufacturer warrantee. It will also reset the clock on the engine warrantee as well.

RE: Fire Chiefs Report

SOUTH PIERCE FIRE AND RESCUE

- Introduction of Chief Wernet
- The District hired two additional Firefighter/Paramedics earlier this year to improve the level and quality of our services. The two new candidates and one existing Firefighter/EMT is attending the Bates Fire Academy, which started May 6th.
- As you are aware that the District Commissioners approved moving forward with the consolidation of all administrative staff in a leased facility in the Town of Eatonville. However, we are in a holding pattern due to the State's restrictions on new construction projects. Once the State lifts the restrictions, we will move forward with signing the lease agreement and contract for the tenant improvements.
- The District has been operating with very old self-contained breathing apparatus and have decided to replace the critically important safety equipment this year. We will be financing the SCBA's through the State's "LOCAL" program.
