

**RESOLUTION NO. 2016-R**

**A RESOLUTION OF THE TOWN OF EATONVILLE, WASHINGTON,  
SETTING THE RATES FOR ELECTRIC SERVICE, ENERGY, AND  
DEMAND AND REPEALING RESOLUTION No. 2016-P**

**WHEREAS**, the Town of Eatonville increased its rates for electric service, energy, and demand in July 2016 when it adopted Resolution No. 2016-P; and

**WHEREAS**, the rates defined within Resolution No. 2016-P contain six numbers following the decimal point and the Town's software may accept only five digits following the decimal point; and

**WHEREAS**, the rates adopted in Resolution No. 2016-P must be rounded up to the nearest five digits following the decimal point; and

**WHEREAS**, the Finance Committee has reviewed the revenue and fund balances of the Electric Fund and the Committee recommends adoption of the proposed 5% rate increases; and

**WHEREAS**, the Town Council has considered the recommendation from the Finance Committee; and

**WHEREAS**, the Town Council finds that despite the proposed rate increase, the Town's electricity rates remain competitive with the rates charged by other electric utilities in the area and the additional revenue is needed to help pay operations and maintenance costs for the existing system and to enable the utility to add to its fund balance for long term capital facility improvements; now, therefore;
